If the insulation is determined by sampling and tests (conducted as provided below) to not meet warranty value, Dow will either deliver to the original owner ("Owner") of the building on which the Insulation was initially installed a quantity of equivalent Dow product to replace the non-performing insulation or, at The Dow Chemical Company's sole discretion, refund to the Owner the original purchase price of the non-performing insulation. Total Dow expense for the life of this Warranty will be limited to the original purchase price of the Insulation.

(Note: In order to be eligible for any MBCI provided warranties, MBCI's roofing system must be installed in strict accordance with the current MBCI requirements. Additionally, all guidelines, limitations, responsibilities and terms and conditions noted in MBCI's warranty must be strictly adhered to). This Warranty shall be void if, in The Dow Chemical Company's judgment, the Insulation's performance has been impaired by either damage or alterations (lacking prior Dow written approval) to the Insulation.

Testing of Insulation samples shall be in accordance with ASTM Test Method C51 8-85, or the then closest Dow-approved effective equivalent thereof. Insulation samples shall be conditioned to equilibrium prior to testing. All sampling and testing costs (including but not limited to costs of Insulation covering removal and replacement) shall be at the Owner's sole expense.
