WIND CERTIFIED DOOR - SEVERE

When it comes to withstanding Mother Nature’s wrath, we have the doors you need. Our wind-rated 5000 Series utilizes deep engagement guides and side curtain windlocks to maintain the operational integrity of the door and to comply with most state and local building codes, especially those in coastal regions. The commercial-grade steel curtain roll-up doors are designed to meet or exceed operational requirements for commercial doors with little or no maintenance.
