The simplicity of the Artisan® panel is its best design feature. Uniform dimensions and a clean appearance allow the designer to plan modules, eliminate complicated pieces and follow wall curvatures. The Artisan® panel can be vertical, horizontal, perpendicular or skewed to the building line, allowing the designer multidimensional freedom to create.

**Features and Benefits:**

- Artisan® panels use the positive fastened method and are attached directly to the substructure. The fastener is concealed behind the flush face.
- Artisan® panels are used for soffits and interior liners. These panels can be attached to the MBCI LiteFrame® system, girts or a solid substructure.
- Artisan® carries Florida approvals.

**Product Specifications**

- **Applications:** Roof and Wall
- **Coverage Widths:** 12"
- **Panel Attachment:** Concealed Fastening System
- **Gauges:** 24 (standard); 26, 22 (optional)
- **Finishes:** Smooth (standard); Embossed (optional)
- **Coatings:** Galvalume Plus®, Signature® 200, Signature® 300, Signature® 300 Metallic
