The Classic® Series is a time-tested performer. Through the years, this panel has been used for canopies, walkway covers and soffits. Proven capabilities make this a versatile and valuable design tool. The Classic® Series creates a clean, flush appearance when used as a canopy system.

**Features and Benefits:**
- Panels may be secured to the structure by using clips or expansion fasteners. Both are positive fastened methods that create a secure interlock between the panel and structure.
- This versatile panel can be attached to the bottom of the roof structural system whether it is light gauge framing, purlins, structural steel or joists. When specifying the Classic® Series, please note the panel surface to be painted (top or bottom).

**Product Specifications**
- **Applications:** Soffits
- **Coverage Widths:** 16”
- **Panel Attachment:** Concealed Fastening System
- **Gauges:** 24 (standard); 22 (optional)
- **Finishes:** Smooth (standard); Embossed (optional)
