* See MBCI Color Chart documents for available colors. Minimum quantities may be required.

⌘ The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the **ARGI-LINE TECHNICAL PRODUCT INSTALLATION MANUAL** for proper application, design details and other product information.

Panel Pricing:

1. All Ameri-Drain® ¼" sheet width (see chart on page 3).
2. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging Add \$1.40 per linear foot
3. Heavy Duty packaging Add \$17.05 per linear foot (\$200.00 min.)

Delivery:

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Notes:

1. Panel lengths greater than 30'-0"Please inquire
2. **Heavier gauges may minimize oil canning.**
3. Perforated aluminum is ⅛" round on 0.324" staggered centers. Approximately 13.5% open area. Contact Customer Service for all other color, gauge, or perforation pattern options.
4. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

Contact Customer Service for all other color, gauge, or perforation pattern options.
4. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

MasterRib® with Drip Stop

Now available with a patented CCM (Condensation Control Membrane) that can be pre-applied to our industry leading MasterRib® metal panel. This innovative product works by creating a medium for trapping moisture in the specially designed pockets formed within the felt's membrane, holding moisture until conditions go back below the dew point. Drip Stop is then able to release the moisture back into the air in the form of normal humidity.

*** See MBCI Color Chart documents for available colors. Minimum quantities may be required.**

α The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the ARGI-LINE TECHNICAL PRODUCT INSTALLATION MANUAL for proper application, design details and other product information.

Panel Pricing:

1. All panel pricing is based on a 38" sheet width (see chart on page 4).
2. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging Add \$1.40 per linear foot
3. Heavy Duty packaging Add \$17.05 per linear foot (\$200.00 min.)

Delivery:

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Notes:

1. Panel lengths greater than 30'-0" Please inquire
2. **Heavier gauges may minimize oil canning.**
3. **Drip Stop material at eave can be fused with heat gun to prevent moisture wicking.**

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**
