*** See MBCI Color Chart documents for available colors. Minimum quantities may be required.**

† Minimum quantities may be required for some colors. Please inquire.

¤ The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the COMMERCIAL/INDUSTRIAL OR "PBR" and "PBU" TECHNICAL/PRODUCT INFORMATION MANUAL for proper product application, design details and other product information.

Panel Pricing:

1. All "PBR" and "PBU" panel pricing is based on a 38¼" sheet width (see chart on page 3).
2. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.
3. Embossing will incur an additional charge, please inquire. 29 and 26 gauge cannot be embossed.
4. Reverse run PBR or PBU panels (upside down) will incur an additional charge, please inquire.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging ..... Add $1.40 per linear foot
3. Heavy Duty packaging ..... Add $17.05 per linear foot ($200.00 min.)

Delivery:

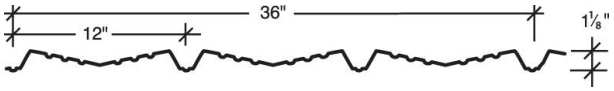

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Note:

1. **Edge of panel in contact with concrete sheeting notch will result in excessive edge creep. Panel corrosion due to contact with concrete or any masonry product is excluded from Panel Warranty.**
2. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.
3. Perforated aluminum is ⅛" round on 0.324" staggered centers. Approximately 13½% open area. Contact Customer Service for all other color, gauge, or perforation pattern options.
4. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

¤ The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the COMMERCIAL/INDUSTRIAL OR "PBR" and "PBU" TECHNICAL/PRODUCT INFORMATION MANUAL for proper product application, design details and other product information.

Panel Pricing:

1. All "AVP" panel pricing is based on a 38¼" sheet width (see chart on page 5).
2. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.
3. Embossing will incur an additional charge, please inquire. 26 gauge cannot be embossed.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging ..... Add $1.40 per linear foot
3. Heavy Duty packaging ..... Add $17.05 per linear foot ($200.00 min.)

Delivery:

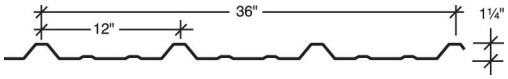

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Note:

1. **Edge of panel in contact with concrete sheeting notch will result in excessive edge creep. Panel corrosion due to contact with concrete or any masonry product is excluded from Panel Warranty.**
2. Perforated aluminum is ⅛" round on 0.324" staggered centers. Approximately 13½ % open area. Contact Customer Service for all other color, gauge, or perforation pattern options.
3. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

*** See MBCI Color Chart documents for available colors. Minimum quantities may be required.**

¤ The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the COMMERCIAL/INDUSTRIAL TECHNICAL/PRODUCT INFORMATION MANUAL for proper product application, design details and other product information.

Panel Pricing:

1. All “PBC" and “PBD" panel pricing is based on a 34" sheet width (see chart on page 9).
2. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.
3. Embossing will incur an additional charge, please inquire.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging ..... Add $1.40 per linear foot
3. Heavy Duty packaging ..... Add $17.05 per linear foot ($200.00 min.)

Delivery:

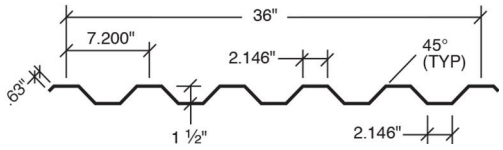

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Note:

1. **Edge of panel in contact with concrete sheeting notch will result in excessive edge creep. Panel corrosion due to contact with concrete or any masonry product is excluded from Panel Warranty.**
2. Perforated aluminum is ⅛” round on 0.324” staggered centers. Approximately 13½ % open area. Contact Customer Service for all other color, gauge, or perforation pattern options.
3. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

¤ The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the COMMERCIAL/INDUSTRIAL TECHNICAL/PRODUCT INFORMATION MANUAL for proper product application, design details and other product information.

Panel Pricing:

1. All 7.2 panel pricing is based on a 39⅛" sheet width (see chart on page 11).
2. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.
3. Embossing will incur an additional charge, please inquire.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging ..... Add $1.40 per linear foot
3. Heavy Duty packaging ..... Add $17.05 per linear foot ($200.00 min.)

Delivery:

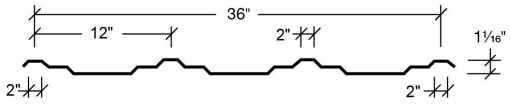

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Note:

1. **Edge of panel in contact with concrete sheeting notch will result in excessive edge creep. Panel corrosion due to contact with concrete or any masonry product is excluded from Panel Warranty.**
2. All perforated material comes with a light oil coating. Panels should be wiped clean before installing.
3. **Panels should be ordered "Reverse Rolled" for use on walls. This allows the lap fasteners to be recessed and less visible.**

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

¤ The Galvalume Plus coating is subject to variances in spangle from coil to coil which may result in noticeable shade variation in installed panels. The Galvalume Plus coating is also subject to differential weathering after panel installation. Panels may appear to be different shades due to this weathering characteristic. If a consistent appearance is required, recommends that pre-painted panels be used in lieu of Galvalume Plus. Shade variation in panels manufactured from Galvalume Plus coated material do not diminish the structural integrity of the product. These shade variations should be anticipated and are not a cause for rejection.

Consult the COMMERCIAL/INDUSTRIAL OR RETRO-R® PANEL TECHNICAL/PRODUCT INFORMATION MANUAL for proper product application, design details and other product information.

Panel Pricing:

1. The Retro-R® panel pricing is based on a 38¼" sheet width (see chart on page 13).
2. Minimum quantities may be required for certain panel gauges and/or colors.
3. Panels 4'-0" in length or shorter will incur an additional charge, please inquire.
4. Pricing includes the drip stop backer.

Packaging Cost:

1. Maximum 3,000 pounds or 75 panels per bundle
2. Standard packaging ..... Add $1.40 per linear foot
3. Heavy Duty packaging ..... Add $17.05 per linear foot ($200.00 min.)

Delivery:

Lead times and plant schedules vary and are determined and communicated upon receipt of your order acknowledgement. Please contact Customer Service for additional information.

Note:

1. Maximum panel length is 40'-0".
2. Existing panels to which the Retro-R® panel will be attached, must be 36" wide and have a major ribs a minimum of 1¼"deep or deeper.
3. **Drip stop material at eave can be fused with heat gun to prevent moisture wicking.**

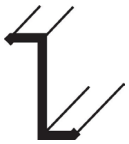

IMPORTANT NOTICE TO INSTALLER/CUSTOMER: Material should be inspected carefully prior to installation for defects including excessive oil canning. **Installation of material constitutes acceptance.**

Price your own custom structural shapes:

1. Select the strip width of material to be used
2. Prices in chart below are for 100 Linear Feet
   Multiply the length of the part times the price per Linear Feet and divide by 100
   This will provide the material price for the part length
3. Add $2.10 for each break
4. Pricing includes banding material for shipment

Note:

1. Maximum closed angle is 45 degrees
2. Hems cannot be fabricated
3. Slight metal fracturing may occur at bend lines
4. Minimum break dimension is 1⅛"
5. All shapes are subject to tolerances published by MBMA
