MBCI WALL AND ROOF PANELS BENEFITS

RAPID RENOVATIONS

Count on MBCI exterior metal wall panels and services to complete your home improvement project on-time. With MBCI's metal roofing, homeowners can rest assured their roof will stand for years to come no matter what mother nature brings.

COMPREHENSIVE PRODUCT TESTING

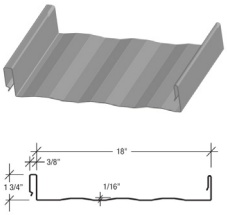

MBCI is committed to an aggressive, independent physical testing program to meet code requirements on water penetration, uplift ratings, and structural performance. MBCI's metal panels have gone through rigorous testing to ensure enhanced performance.

EYE CATCHING AESTHETICS

Homeowners expect an eye pleasing aesthetic both inside and outside their residence. MBCI metal wall and roof panels feature a vast color palette and premier texture to create an elegant exterior ambiance that will make your home stand-out from other houses in your neighborhood.

LOKSEAM®

LokSeam is a snap-together standing seam roof system with a 1¾" tall vertical rib, for use on roofs with a minimum slope of 3:12. LokSeam panels are available in 12", 16" and 18" widths. LokSeam panels can be installed over open framing or a solid substructure and are capable of transitioning from roof to fascia with the use of a rib cover. LokSeam does not require a solid substructure for support

Product Specifications

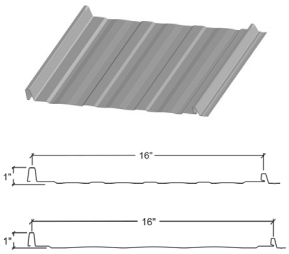

- **Applications:** Roof
- **Coverage Widths:** 12", 16", 18"
- **Minimum Slope:** 3:12
- **Panel Attachment:** Concealed Fastening System, Standard and UL90 Clips
- **Gauges:** 24 (standard); 22 (12", 16", 18"), 26 (12") (optional)
- **Texture:** Striated (standard); Embossed Striated (optional)
- **Coatings:** Galvalume® Plus, Signature® 200, Signature® 300, Signature® 300 Metallic

Features and Benefits

- Narrower widths, heavier gauges, striations and embossing minimize oil canning.
- Panels can be installed on roofs with a transition by using MBCI's die-formed rib covers.
- UL 580 rating is available, as well as UL 790, Class A for external fire, roof assembly for UL 263 for internal fire and the UL 2218 Class 4 impact rating.
- LokSeam carries Florida approval rating.

SLIMLINE®

The Slimline roof panel system offers a sleek contemporary profile ideal for residential and light commercial applications. This system offers a concealed fastener attachment. Slimline panels must be specified as striated or striated with minor ribs. Slimline cannot be end lapped.

Product Specifications

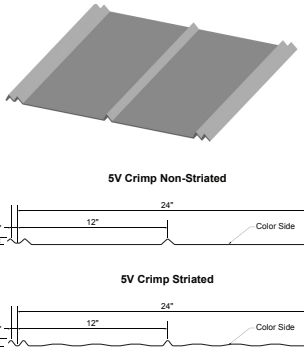

- **Applications:** Roof
- **Coverage Widths:** 16"
- **Rib Height:** 1"
- **Minimum Slope:** 3:12
- **Panel Attachment:** Concealed Fastening System
- **Gauges:** 29 (standard); 26 (optional)
- **Texture:** Minor Rib with Striations (standard); Striations only (optional)
- **Coatings:** Galvalume® Plus, Signature® 200

Features and Benefits

- UL 580 rating is available, as well as UL 790, Class A for external fire, roof assembly for UL 263 for internal fire and the UL 2218 Class 4 impact rating.
- Slimline carries Florida approval rating.

5V CRIMP

The 5V Crimp roof panel offers an ideal old-time, residential appearance. 5V Crimp is also an aesthetically pleasing solution for light commercial applications. The 5V Crimp panels require a solid roof deck with a waterproof membrane.

Product Specifications

- **Applications:** Roof
- **Coverage Widths:** 24"
- **Rib Spacing:** 12" on center
- **Rib Height:** ½"
- **Minimum Slope:** 3:12
- **Panel Attachment:** Exposed Fastening System
- **Gauges:** 29 (standard); 26 (optional)
- **Texture:** Non-striated; Striated
- **Coatings:** Galvalume® Plus, Signature® 200

Features and Benefits

- UL 580 rating is available, as well as UL 790, Class A for external fire, roof assembly for UL 263 for internal fire and the UL 2218 Class 4 impact rating.
- 5V Crimp carries Florida approval rating.
